MEMORANDUM FOR: Deputy Director of Security (PS)

THROUGH : Acting Director of Security

SUBJECT : [REDACTED] Registry

25X1A

1. The following is furnished for your information and suggests action on the part of your Directorate.

2. In connection with the Agreement Between the Parties to the North Atlantic Treaty for Cooperation Regarding Atomic Information (144b Agreement) pursuant to Section 144 (b) of the Atomic Energy Act, international headquarters will be permitted to inspect under their auspices compliance with [REDACTED] security regulations as incorporated in an Annex to the above-cited Agreement.

25X1A

3. The net effect of this Agreement would seem to me to require us to set up an [REDACTED] registry, separated from our normal registries which this international inspection team could inspect. This presupposes, of course, that we have received [REDACTED] documents through the NATO system.

4. I would like to discuss this with you further if we have any such documents.
